PROFESSIONAL SUMMARY

Business Analyst and Project Manager with 3+ years delivering end-to-end software projects across CRM, HRM, LMS, and AI-driven platforms for enterprise clients (Vietravel, AstraZeneca, Mobifone, KBank, De Heus). Proven ability to lead cross-functional teams of 20+, manage vendor implementations, and turn ambiguous business needs into shippable solutions. Early adopter of AI-augmented workflows -- uses Claude (Cowork, Code) and MCP-based tooling to accelerate requirement analysis, documentation, and stakeholder communication. Strong in Agile delivery, system integration, and driving high user adoption.

CORE COMPETENCIES

Requirement Elicitation & FIT/GAP Analysis

Agile/Scrum Project Management

CRM / HRM / LMS Delivery

BRD / SRS / URD Documentation

System Integration & Data Mapping

AI-Augmented BA Workflow (Claude, MCP)

Vendor & Stakeholder Management

UAT Facilitation

WORK EXPERIENCE

Vietravel Tourism Joint Stock Company

Sep 2025 - Present

BA & Project Manager

Ho Chi Minh City, Vietnam

- Led the enterprise-wide CRM implementation for Vietravel, coordinating a cross-functional team of 20+ members (10 internal + vendor) targeting 500+ end users across Sales, Marketing, and Customer Service
- Conducted end-to-end requirements gathering and translated them into detailed functional specs and user stories used by both internal teams and the vendor
- Managed system integration between CRM, the booking platform, and the Customer Data Platform (CDP); designed data mapping and integration plans to ensure seamless data flow
- Owned project planning, sprint execution, risk management, and stakeholder reporting; ran weekly steering meetings with department heads
- Used Claude (Cowork, Code) and MCP-based tooling to accelerate BA work -- drafting BRDs, comparing vendor proposals, generating test cases, and summarizing meeting notes -- cutting documentation turnaround time by an estimated 30-40%

DR Digital

Jul 2024 - Sep 2025

BA & Project Manager

- Led requirement gathering and solution design for enterprise clients including AstraZeneca, Mobifone, and De Heus Vietnam across LMS and AI-driven DMS platforms
- Translated complex business needs into technical specifications (URD, user stories, wireframes) using Confluence and Figma, aligning developers and stakeholders on a shared understanding
- Managed Agile sprints, backlog grooming, and JIRA workflows; monitored project budgets and scope to deliver 100% of milestones on time
- Acted as Project Manager on the AI-powered LMS for AstraZeneca, integrating an LLM-based learning chatbot and personalized learning paths -- delivered MVP in 10 weeks with 92% UAT satisfaction
- Facilitated UAT workshops, demos, and user training; iterated on product features from collected feedback to drive adoption post-release

Foolist Creative

Apr 2023 - Feb 2024

Business Analyst

- Analyzed and documented customer requirements for website and digital product engagements, ensuring on-time delivery
- Planned and executed R&D on Odoo ERP, independently developing two functional modules (HRM, CRM) from requirements through implementation

- Conducted market research and built Customer Personas and product roadmaps to inform business strategy

FPT Information System Joint Stock Company

Mar 2022 - Mar 2023

Business Analyst

- Collected, analyzed, and documented HRM requirements for a large-scale enterprise system adopted by 8,000+ users
- Produced project documentation (URD, Blueprint, Feature Lists) across 3 major projects, serving as the primary reference for development teams
- Performed FIT/GAP analysis as liaison between clients and development teams, achieving 100% requirement fulfillment accuracy
- Supported go-live with user training, client presentations, and post-deployment support to ensure operational readiness

PROJECTS

CRM Implementation -- Vietravel Sep 2025 - Present

End-to-end CRM rollout covering customer data, sales pipeline, and multi-channel engagement for the travel industry. Coordinated requirements from Sales, Marketing, and Customer Service; produced detailed functional specs and process flows. Managed integrations with the booking system and CDP; led vendor collaboration on platform customization, UAT planning, and risk mitigation.

BA & Project Manager, Team: 20+ (10 internal + vendor)

AI-powered Learning Management System -- AstraZeneca Vietnam May 2025 - Sep 2025

Internal LMS with personalized learning paths, certification workflows, real-time progress tracking, and an AI chatbot for learner support. Drove requirements with HR, Product, Marketing, and Commex teams; integrated SSO and HR data sync. Outcomes: MVP delivered in 10 weeks, 92% user satisfaction in UAT, rolled out to 300+ employees, reduced support load via AI chatbot.

Acting Project Manager, Team: 7 (1 PM/BA, 2 BE, 2 FE, 1 UI/UX, 1 QA)

Lucky Draw System -- KBank Vietnam ("KBank Thưởng Vàng") Sep 2024 - Jan 2025

Transparent lucky draw system handling 20M+ customer records for KBank Vietnam's gold reward campaign. Aligned requirements with KBank stakeholders to meet campaign goals and compliance constraints. Owned full project lifecycle: planning, team coordination, stakeholder communication, and milestone delivery.

Project Manager, Team: 4 (1 PM/BA, 1 BE, 1 FE, 1 UI/UX)

EDUCATION

Master of Information Systems University of Information Technology, VNU-HCM

2024 - Present

Bachelor of Telecommunications Posts and Telecommunications Institute of Technology

2017 - 2022

CERTIFICATIONS

Advanced Business Analyst & Product Owner

TrueSkill Center

English Proficiency B1 (VSTEP)

Posts and Telecommunications Institute of Technology

SKILLS

Business Analysis: Requirement elicitation, FIT/GAP analysis, solution design, process modeling (BPMN 2.0, UML), stakeholder management, UAT facilitation
